Documentaries - BBC, National Geographic, Bio Pixel, Disney- Welcome to Earth
(Will Smith), Reef Shot (Netflix), River Monsters (Jeremy Wade)

Bill Bailey: What an unforgettable trip on the Aroona. We are still on cloud nine after an amazing week. Just bring on the reef, among such extraordinary natural beauty and wildlife is amazing enough but the whale experience is on another level entirely. The minke whale encounters will stay with us for a lifetime. Thanks for managing them so expertly and generally being excellent crew and company.

Snorkelling, Diving, Island Hopping, Kite Surfing, Stand up paddle boarding,
